INTRODUCTION

1. The Government of Finland has provided statistical information on imports by Finland, classified by beneficiary country and by product, for 1990 and 1991. This information is summarized below and is shown, in detail, in tables 1 and 2 of the annex to this note.

2. The information contained in table 1 relates to the value of total dutiable GSP-covered and preferential imports 1/ from each beneficiary of products contained in the Harmonized Commodity Description and Coding System (H.S.) chapters 1-24, 25-97 and 1-97. Table 2 gives the value of imports of major products covered by the scheme from the world and the total of preferential imports from all beneficiaries as well as from major beneficiary suppliers of these products.

I. IMPORTS BY FINLAND FROM BENEFICIARY SUPPLIERS, 1990 AND 1991

3. As may be seen from table 1 B, Finland registered imports from 113 and 115 beneficiaries in 1990 and 1991, respectively. One of the beneficiaries in 1990 and two in 1991 had no dutiable exports. Furthermore 15 other beneficiaries in 1990 and 13 in 1991 could not claim preferential treatment because their exports were not covered by the scheme. In addition, 31 beneficiaries in 1990 and 28 in 1991 failed to receive preferential treatment in those years, although some of their exports were covered by the scheme. Thus 66 beneficiaries actually received GSP treatment in 1990 and 72 in 1991, respectively.

4. Total Finnish imports from all beneficiaries in 1990 and 1991, as shown in table 1 A amounted to $1,979 million and $1,805 million, respectively. Dutiable imports accounted for $1,618 million in 1990 and $1,502 million in 1991 or 81.8 per cent and 83.2 per cent of the total value for each respective year. Of these imports, 34.2 per cent or $554 million were covered by the scheme in 1990 and $473 million or 31.5 per cent in 1991. The bulk of these covered imports ($458 million or 82.1 per cent in 1990 and $381 million or 80.6 per cent in 1991) consisted of industrial products and raw materials, in H.S. chapters 25-97. Agricultural products in H.S chapters 1-24 accounted for the remaining $96 million and $92 million in each year. Those imports which actually received preferential treatment amounted to $330 million in 1990 of which $84 million (25.3 per cent) were agricultural products and $247 million (74.7 per cent) were industrial products. In 1991, preferential imports amounted to $277 million of which $81 million (29.4 per cent) were agricultural products and $195 million (70.6 per cent) were industrial products.

5. The overall rate of utilization of the Finnish scheme, as measured by the ratio of preferential imports to imports covered by the scheme was 59.6 per cent in 1990 and 58.5 per cent in 1991. The utilization rates of agricultural products and industrial products amounted, in that order to 86.8 per cent and 53.9 per cent in 1990 and 88.5 per cent and 51.3 per cent in 1991. However, as may be seen from table 1 B, these utilization rates varied widely from beneficiary to beneficiary.

6. Twelve major suppliers accounted for $447 million, or 80.7 per cent of all imports covered by the Finnish scheme in 1990, and for $389 million, or 82.3 per cent, in 1991 and for $252 million, or 76.3 per cent of the total

value of imports which actually received preferences in 1990, and for $218 million, or 78.8 per cent in 1991. By order of the relative value of covered imports into Finland in 1991, the major suppliers were: China, Republic of Korea, Singapore, Thailand, Hong Kong, former Yugoslavia, Brazil, India, Malaysia, Romania, Israel and the Philippines. It should be noted that Turkey, although a major supplier in 1990, ceased to be a major supplier in 1991 which Panama emerged as a major supplier in 1991.

7. Dutiable Finnish imports from 33 supplying least developed countries (LDCs) 2/ in 1990 and 30 in 1991 attained respectively, a value of $28 million and $18 million in each year of which $17 million or 59.1 per cent were covered by the scheme in 1990 and $11 million or 60.7 per cent were covered in 1991. Of these covered imports, 84.1 per cent or $14 million in 1990 and 89.2 per cent or $10 million in 1991 received preferential treatment. Thirteen of these least developed countries received preferential treatment in 1990 and in 1991. Tanzania ($3.3 million), Ethiopia ($2.9 million), Burundi ($1.5 million), Malawi ($1.1 million), Afghanistan ($0.3 Million) and Rwanda ($0.2 million) alone accounted for 97 per cent of total preferential imports in 1991. In 1990 these six countries ($3.4, $4.3, $3.1, $2.1, $0.2, $0.4 million, respectively) accounted for 97.6 per cent of total preferential imports.

8. Finnish imports of products covered by its scheme from Mediterranean (MED) and ACP countries which enjoy special preferences in the EEC market amounted to $25.1 million and $10.8 million in 1991, respectively. The value of covered imports from the two sources which received preferential treatment in 1991 amounted to $18.3 million and $9.7 million, respectively. Thus, in 1991 these two groups of countries supplied 7.6 per cent of products eligible for preferential treatment under the scheme and 10.1 per cent of total of imports which actually received preferential treatment. Comparatively these two percentages in 1990 were valued, respectively, at 9.6 per cent and 12.7 per cent.

II. IMPORTS OF MAJOR PRODUCTS UNDER THE FINNISH SCHEME IN 1991 AND MAJOR SUPPLIERS

9. Table 2 shows the value of Finnish imports in 1991 of major products covered by its scheme from the world, all beneficiary suppliers and individual major suppliers, as well as the value of imports of these products which effectively received preferential treatment. Imports from beneficiaries of major products, defined at the Finnish tariff line level, covered by its scheme in 1991 were recorded under 227 tariff lines of which 10 items were considered as agricultural products. Imports of these major products from beneficiaries amounted to $379 million or 80.9 per cent of the total imports covered ($473 million) in 1991. Of these imports, 79.9 per cent received preferential treatment.

10. Some 21 major products, the covered imports of which were valued at $4 million or more, accounted for 37.8 per cent of the covered imports of the 227 major products in 1991. By order of the relative value of covered imports (expressed in millions of dollars) they were: Finnish tariff line 08.03.0021 Bananas ($27.1); 84.71.9300 Automatic data processing storage units ($18.7); 20.08.2000 Pineapples ($13.7); 84.73.3000 Parts and accessories of automatic data processing ($12.5); 84.71.9200 Input or output units ($12.1); 09.01.1100 Coffee, not roasted ($9.7); 85.16.5000 Microwave ovens ($9.7);

Notes

1/ For information covering previous years, see TD/B/C.5/30, TD/B/C.5/30/Add.1, 6 and 15, TD/B/C.5/PREF/42.

2/ Finland grants preferences to all LDCs recognized by the United Nations General Assembly. In the present analysis, only actual beneficiary LDCs up to 1991 have been taken into account. Therefore, Cambodia, Madagascar, Zaire and Zambia have not been taken into account in imports from LDCs into Finland.
